Clinical Procedures For Medical Assistants Introduction

Clinical Procedures for Medical Assistants - E-Book

Learn the foundational concepts and skills necessary to become a successful clinical medical assistant! Written using clear and accessible language, *Clinical Procedures for Medical Assistants*, 10th Edition guides you through common office procedures such as taking vital signs, collecting and processing lab specimens, preparing patients for examinations, and assisting with office surgeries. This new edition is thoroughly updated throughout and includes content on elephant system for ear irrigation, influenza test, h. pylori test, digital scale for measuring weight, administration of rotavirus vaccine, along with new chapters on nutrition, emergency preparedness, and the medical record. Plus, with the addition of soft skills, and critical thinking exercises, this comprehensive text introduces you the skills you need to succeed in today's fast-paced medical office. UPDATED procedural photos provides you with the most current pictures of how to perform important clinical medical assisting procedures. Detailed learning objectives at the beginning of each chapter align with respective procedures to help guide you through the learning process (and ensure that you learned everything you should from the chapter). Over 120 procedures presented in a clear, illustrated, step-by-step format, with online videos showing 84 of the procedures in action. Student resources on the Evolve companion website offer a fun way for you to practice your medical assisting knowledge with animations, games matching exercises, and other interactive activities. Chapter outlines and learning objectives prepare you for the skills and concepts you will be learning. Charting examples help you understand the process for charting your own procedures. Patient Teaching boxes prepares you for effective communication, with detailed instructions on how to answer questions and how to explain medical concepts and procedures. What Would You Do? What Would You Not Do? case studies challenge you to apply your knowledge to realistic medical office situations — with a practitioner's response at the end of chapters. Putting It All Into Practice and Memories from Practicum boxes feature real medical assistants sharing personal, on-the-job experiences. Glossary of key terms gives you a quick reference guide for important terms and concepts.

Clinical Procedures for Medical Assistants

This essential resource prepares you for a career in clinical medical assisting with complete coverage of the concepts, procedures, and skills you need to succeed in today's fast-paced medical environment. Step-by-step, hands-on guidance helps you quickly learn to perform procedures such as taking vital signs, collecting and processing lab specimens, preparing patients for examinations, assisting with office surgeries, and other treatments and procedures. Includes four DVDs with video demonstrations of the skills in the book! A Chapter Outline and Learning Objectives at the beginning of each chapter prepare you for the skills and concepts you will be learning. A list of National Competencies at the beginning of each chapter identifies the theory and skill requirements addressed in that chapter. Key Terms and Terminology Review help you master important medical assisting terminology. Procedures are easy to follow with a consistent, step-by-step presentation accompanied by photographs and documentation/charting examples and guidelines. What Would You Do? What Would You Not Do? case studies in each chapter challenge you to apply what you've learned to realistic medical office situations. A practitioner's response is included for comparison. Putting It All Into Practice and Memories from Externship boxes feature real medical assistants sharing personal, on-

the-job experiences to help you connect with your future goals and better understand the realities of working in a medical office. Patient Teaching boxes prepare you for effective communication with detailed instructions for answering patient questions and explaining important medical concepts and procedures. Medical Practice and the Law sections at the end of each chapter highlight important legal and ethical issues you need to know when working in a medical practice setting. Apply Your Knowledge questions help you assess your understanding of the chapter material. Certification Review sections summarize important points from the chapter that are essential to know for the certification examination. An On the Web feature provides you with up-to-date lists of websites you can access for more information related to chapter content. A Companion CD offers additional learning tools such as the Quiz Show and Road to Recovery games, labeling exercises, identification exercises, and other helpful activities. The latest OSHA Bloodborne Pathogens Standards Proper procedure for measuring temperature using a temporal artery thermometer Step-by-step guidance for performing pulse oximetry Essential principles related to intravenous therapy Procedure for performing the A1C blood glucose test Updated information on medications commonly administered and prescribed in the medical office Four Companion DVDs show you proper technique for performing more than 70 step-by-step procedures directly from the book.

Study Guide for Clinical Procedures for Medical Assistants - E-Book

Study Guide for Clinical Procedures for Medical Assistants

This money-saving package includes the 8th edition of Clinical Procedures for Medical Assistants textbook and the Workbook for Clinical Procedures for Medical Assistants 8th edition.

Clinical Procedures for Medical Assistants - Text and Study Guide Package

"Clinical Procedures for Medical Assisting, 2nd edition\" addresses the most current competencies for CMA certification, CPR procedures, coding and insurance billing requirements, HIPAA regulations, OSHA guidelines, and clinical diagnostic testing such as hemoglobin A1c (diabetes) testing. It also includes coverage of procedures and the coverage of Anatomy and Physiology is increased significantly. It trains students on clinical procedures, infection control, anatomy and physiology, assisting with patients, medical emergencies and first aid, laboratory procedures, nutrition, pharmacology, diagnostic equipment, and much more..

Clinical Procedures for Medical Assistants

Gain realistic experience in a physician's office without leaving the classroom! By using Elsevier's Virtual Medical Office learning system - an Elsevier textbook, a study guide, and interactive software - students develop critical thinking and decision-making skills they'll need in their externships and on the job. In Virtual Medical Office, students experience patient care from check-in through check-out, exploring all national curriculum competencies. It shows how to manage different patients - and why. Each study guide lesson directs the student through the textbook and software and presents exercises focused on one or two medical assisting competencies at a time based on what they experience. Realistic software simulations of handling a difficult patient, setting up the exam room, and many more, bridge the gap between the classroom and the real world. 15 unique cases promote understanding of how the competencies established by ABHES (Accrediting Bureau of Health Education Schools) and CAAHEP (Commission on Accreditation of Allied Health Education Programs) come into play in the workplace. More than two hours of video clips highlight the communication and professionalism competencies of patient care. Realistic information resources are

shown, such as medical records for each case, an office policy manual, a fee schedule, a daysheet, and more. Performance summaries allow students to compare their decisions for each case to those of an expert and evaluate any differences between the two. A study guide: Complements textbook content through lessons that correlate reading assignments with patients in the virtual practice. Focuses on one or two competencies in each lesson, to create brief, manageable learning experiences. Demonstrates how all CAAHEP and ABHES medical assisting competencies come into play in the workplace. Promotes active learning as students collect information from a variety of sources to make patient care decisions. Encourages critical thinking as students discuss and critique the performance of the medical assistants in the videos. Augments knowledge of HIPAA by directing students to compare the policy manual, the contents of each case's medical record, and what actually happens in the videos. Makes lessons available online, allowing students to complete their assignments and submit them electronically to their instructor.

Instructor's Resource Manual for Clinical Procedures for Medical Assistants

Contains extensive exercises for each chapter and performance checklists. A new board game is included, providing students with a fun way to refine their clinical and critical knowledge and skills.

Student Manual for Clinical Procedures for Medical Assistants

This concise, well-organized book is the first clinical procedures text written by physician assistant educators and practitioners for physician assistant students. It focuses on the 72 most frequently taught, commonly performed diagnostic and treatment-related procedures that practicing PAs need to know. Step-by-step, hands-on procedure sections clearly and precisely explain the 'how-to' steps of a procedure, while other sections provide essential diagnostic or treatment information such as indications, contraindications, essential anatomy and physiology, patient preparation, materials, and more. Chapters on Informed Consent, Standard Precautions, Patient Education Concepts, and Procedure Documentation discuss essential, non-procedural skills and considerations to ensure that readers have a comprehensive understanding of the use of procedures in physician assistant practice.

Virtual Medical Office for Clinical Procedures for Medical Assistants

Use this study tool to master the content from your Today's Medical Assistant: Clinical & Administrative Procedures, 2nd Edition textbook! Corresponding to the chapters in the textbook by Kathy Bonewit-West,

Sue Hunt, and Edith Applegate, this study guide helps you understand and apply the material with practical exercises, activities, flashcards, checklists, review questions, and more. Chapter assignment tables at the beginning of chapters guide you through textbook and study guide assignments, and make it easy to track your progress. Laboratory assignment tables list the procedures in each chapter, including study guide page number references, and indicate the procedures shown on the DVDs. A pretest and posttest in each chapter measure your understanding with 10 true/false questions. Key term assessments include exercises to help in reviewing and mastering new vocabulary. Evaluation of Learning questions let you assess your understanding, evaluate progress, and prepare for the certification examination. Critical thinking activities let you apply your knowledge to real-life situations. Practice for Competency sections offer extra practice on clinical skills presented in the book. Evaluation of Competency checklists evaluate your performance versus stated objectives and updated CAAHEP performance standards. Updated content includes exercises for topics such as electronic medical records, advanced directives, HIPAA, emergency preparedness, ICD-10 coding, documentation, medical office technology, medical asepsis, vital signs, pediatrics, colonoscopy, IV therapy, and CLIA waived tests. New activities provide practice for the Today's Medical Assistant textbook's newest and most up-to-date content. New Emergency Protective Practices for the Medical Office chapter includes procedures, critical thinking questions, and other activities to help you understand emergency preparedness. New Wheelchair Transfer Procedure and Evaluation of Competency checklist includes a step-by-step guide to this important procedure. New video evaluation worksheets on the Evolve companion website reinforce the procedures demonstrated on the textbook DVDs. New practicum and externship activities on Evolve provide practice with real-world scenarios.

Clinical Procedures for Medical Assisting

Reinforce the textbook with online learning! With media-rich content that corresponds to and enhances Bonewit-West: *Clinical Procedures for Medical Assistants, 7th Edition*, this complete online course combines interactive content, practice, and assessment. Students interact with a variety of patient cases while getting "on-the-job" experience performing the same competencies they are expected to master to successfully graduate. The course correlates to CAAHEP and ABHES clinical competencies. Many patient scenarios are included, with tasks such as taking vital signs, administering medications, and performing a venipuncture. Modules direct students to read from the text and answer review questions to reinforce understanding. First-person virtual mentoring simplifies and personalizes instructions from the virtual supervisor. Training Activities challenge students to apply skills, allowing them to practice competencies in a safe environment. A self-evaluation checklist allows students to mark off lesson objectives they've mastered or review content for those requiring more study. Quick Review questions allow students to check their comprehension, stay engaged, and learn from feedback. Lounge Talk lets students review what they've learned from each lesson with their supervisor/mentor. Lesson quizzes and module exams let students demonstrate their mastery of the content, with automatic scoring and calculation of grades. Pop-up boxes include in-depth explanations, oversized figures, or paperwork forms actually used on the job. A glossary provides definitions and audio pronunciations, each term linked to relevant locations in the online content. Discussion board topics and assignments are posted online, saving the instructors time in preparation. The Evolve course management system saves time with automatic scoring and a grade book for the instructor, and improves class communication with real-time chat, calendar, e-mail, and bulletin board.

Student Mastery Manual to Accompany Clinical Procedures for Medical Assistants

Launch your career in medical assisting with Today's Medical Assistant, *Clinical & Administrative Procedures, 3rd Edition*! Updated photographs and illustrations give readers a closer look at today's most pertinent information and skills for the medical assistant. NEW! Expanded A&P key terminology sections give readers ample terminology reinforcement, including proper pronunciations.

Clinical Procedures for Medical Assistants Binder Ready

Develop the critical thinking and decision-making skills you need to confidently succeed in practice with Virtual Medical Office. This innovative learning system simulates the experience of working in a real medical office and integrates content from your Clinical Procedures for Medical Assistants, 9th Edition textbook with an engaging study guide and interactive lessons to enable you to make decisions and learn from your mistakes in a realistic and completely safe environment. Duration for access to this product, which may be at the discretion of your institution, is up to 24 months. Elsevier reserves the right to restrict or remove access due to changes in product portfolio or other market conditions. Integrates text reading assignments with study guide lessons that direct you to the VMO software online. Software includes 15 unique cases, each designed to highlight a different combination of medical assisting competencies as defined by CAAHEP and ABHES. Immerses you in a realistic yet safe environment. Software contains complete medical charts for each patient, including extensive back histories, giving you plenty of material to use for practicing coding and filing claims. Each software case includes 5 videos (one at check-in, three in the exam room, and one at check-out), offering you a rare opportunity to step into the shoes of billable service providers and compare what is documented against what actually happens in the video. Interface tested and designed to match computer experience level of coding and billing students. Performance summary allows you to compare your decisions for each case with the expert's and evaluate any differences between the two. Each study guide lesson focuses on a few objectives, to create brief (20-30 minutes of \"seat time\"), manageable learning experiences. Promotes active learning as you collect information from a variety of sources to make decisions about each case's care. Encourages critical thinking as you discuss and critique the performance of the medical assistants in the videos. Study Guide Lessons available online allows you to complete your assignments and submit them electronically to your instructor. NEW! Updated content reflects

revisions of the Bonewit-West Clinical 9th Edition textbook.
